COLFUTURO Fundación para el Futuro de Colombia
Carrera 15 No. 37-15
Bogotá
Colombia

Dear Jerónimo Castro

Re: Second addendum to the collaborative agreement between Fundación para el Futuro de Colombia and The University of Warwick

COLFUTURO and The University of Warwick have a longstanding collaborative agreement dating from 2003, through which the University has welcomed a significant number of outstanding COLFUTURO beneficiaries into a wide variety of academic disciplines. These scholars have actively contributed and thrived as part of our student community.

To recap, Warwick would like to continue the provision of substantial financial support to COLFUTURO beneficiaries as follows:

- WMG (Warwick Manufacturing Group) and WBS (Warwick Business School) to provide scholarships worth 50% of the tuition fees to all COLFUTURO beneficiaries studying on full-time master's courses within these two departments. An updated list of eligible courses is appended to this addendum.
- The University of Warwick to provide scholarships worth 20% of the tuition fees for COLFUTURO beneficiaries studying on any other master's in any other department.
- The University of Warwick to also provide scholarships worth 20% of the tuition fees for COLFUTURO beneficiaries pursuing PhD studies in any department at the University.

In order to be eligible for these awards, scholars should have an unconditional offer of a place on a full time postgraduate taught or research course delivered at the University of Warwick for entry in 2024/25, 2025/26 or 2026/27. There is no restriction on the number of COLFUTURO beneficiaries joining any programme.

A comprehensive list of Warwick's master's and PhD programmes can be found here:
<https://warwick.ac.uk/study/postgraduate/>.

Tuition fees are published in advance and can be viewed at:
<http://warwick.ac.uk/services/academicoffice/finance/fees/postgraduatefees/>.

We very much look forward to continuing our strong working relationship with COLFUTURO to help enable the brightest Colombian students fulfil their potential through master's or PhD studies at the University of Warwick.

Yours Sincerely,

Adam Child
Academic Registrar

APPENDIX 1
